

WHAT WOULD YOU DO IF YOU DID NOT HAVE TO GO TO WORK?

Hello. My name is [Rosie Bank](#) and I am a team leader with a world-class network marketing company called [USANA Health Sciences](#). Let me tell you about a business that is not for everyone, but for those **determined enough** to raise themselves and their families to higher financial ground, is like a gold mine.

I am looking for people who are looking for ways to make more money, to live more freely, to earn what they are worth, and to be in control of their lives. See my story below and how it could impact *your* life.

I have been with USANA since 1999. I worked my business part-time for about five years. Things heated up around 2005 when the exponential factor kicked in. Although I was *extremely* skeptical when first approached, becoming an associate with a company that markets [products](#) that enrich people's lives (often dramatically) has become the best decision of my life. The marketing aspect of USANA represents a compensation plan that can help you achieve [complete financial freedom](#) if you *stick with the plan*, even on a part-time basis. Now that I am in the six-figure level with my USANA business, I am looking for a few super-motivated people to take my business through the roof. What this means to you is that you would let yourself be trained to profit as my business partner. You can work this business alongside your current job. I will show you how.

TAKE THE USANA 120-DAY CHALLENGE

- Watch this [video tour](#) about the network marketing industry. What if there is a fresh face to this type of business and you could benefit from getting involved?
- See this [on-line tour](#) that is specific to this company.
- Call me to schedule one thirty minute [on line presentation](#) that will address any questions or concerns you may have, plus explain to you *exactly* what it takes to get involved, how much money you can make, and what you will do to build your business.
- Have a [product experience](#). Approximately 85% of people who take the USANA products on a regular basis report a significant improvement in how they feel.
- Be trainable. As your coach, I will guide you every step along the way.
- At the end of 120 days you will know if this is a good fit for you. Ask yourself: what do you have to lose, and more importantly, **what do you have to gain?**

**Opportunities are often mistaken for interruptions or distractions. There is no "perfect time" to get involved. The best time to plant a shade tree was twenty years ago.
The next best time is now.**
